PROFESSIONAL SUMMARY

Frontend Developer with 2 years of professional experience building responsive, data-driven enterprise SaaS interfaces using React, TypeScript, JavaScript, and modern frontend libraries. Experienced in translating designs into reusable UI components, integrating REST APIs, managing application and server state, and improving interface performance. Brings additional professional experience in pharmaceutical Quality Control, with strengths in structured workflows, data accuracy, documentation, and working with business-critical systems.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript ES6+, HTML5, CSS3, Tailwind CSS, Bootstrap

React & State: Redux Toolkit, React Query, React Router, Hooks, Context API, custom hooks, controlled forms

APIs & Data: Axios, REST APIs, loading/error handling

Performance & UI: Lazy loading, memoization, list virtualization, accessibility, responsive design

Tools & Workflow: Git, GitHub, GitLab, Bitbucket

Additional Domain Experience: Laboratory information systems (LIMS), Caliber E-log, QAMS, LSMS, Chromeleon, LabSolutions, SAP; GMP/GLP workflows and data integrity

SELECTED PROJECT

LeadAngel — Enterprise CRM SaaS | *React • TypeScript • Redux Toolkit • React Query • Tailwind CSS • Axios*

- Built scalable React component architecture with reusable UI patterns, improving development speed and ensuring visual consistency across CRM modules.
- Implemented structured state management using Redux and React Query, along with React Router for seamless navigation across data-driven CRM workflows.
- Developed robust API integration patterns with proper loading and error handling, improving data reliability across screens.
- Built responsive interfaces using Tailwind CSS with emphasis on usability and visual consistency.
- Optimized app performance by reducing unnecessary re-renders through memoization, optimized state updates, and route-based lazy loading.

PROFESSIONAL EXPERIENCE

VYAKAR TECHNOLOGIES PVT. LTD. — Frontend Developer | *Bhilai, India* | *Sep 2023 – Jul 2025*

- Built responsive, pixel-accurate enterprise SaaS interfaces from Figma designs using React, TypeScript and Tailwind CSS.
- Improved application performance by implementing lazy loading, memoization techniques and optimizing state management to reduce unnecessary re-renders.
- Implemented and refined layout structures to achieve seamless cross-browser compatibility and support a wide range of desktop resolutions.
- Integrated REST APIs with frontend components, handling loading states, errors, and dynamic UI rendering for data-driven features.
- Used Redux Toolkit and React Query for application/server state; improved UI performance with lazy loading, memoization and react-virtualized for large lists.
- Leveraged Git and GitLab for structured version control and seamless team collaboration.

LUPIN LTD. — Quality Control Officer / Laboratory Analyst | *Goa, India* | *Aug 2014 – Jan 2021*

- Performed pharmaceutical raw-material sampling and analytical testing in GMP/GLP laboratory workflows, following approved STP/SLP/SOP/IOP procedures.
- Worked with Caliber LIMS, Caliber E-log, QAMS and LSMS for laboratory records, electronic data and sample/result management.
- Used instrument-specific software including Chromeleon and LabSolutions with computerized analytical instruments: HPLC, GC, FT-IR, NIR, Polarimeter, Karl Fischer and Melting Point Apparatus.
- Used SAP for basic transactions/entries and performed Excel-based laboratory data processing.
- Entered analytical results into LIMS/TDS and supported laboratory OOS and incident investigations as an analyst; handled calculations, documentation, calibration-related activities and data-integrity requirements.

EDUCATION

Master of Chemistry (M.Sc. Chemistry) — 2014–2016

B.Sc. Industrial Drug Science — 2011–2014
